

Welcome to our first newsletter!

We are so excited to share information that will inform you, answer questions frequently asked, and highlight our services. Maybe we may even make you smile as you read along!

Each month we will be sending a monthly newsletter via your email and the newsletter can be found on our website. Enjoy!

OUR COMMITMENT TO YOUR SAFETY

At **Smith Family Dentistry**, we are committed to following the **CDC** and the **American Dental Association's established guidelines**. Our Dentists are available for **Teledentistry** in the comfort and safety of your home

- ♥ All treatment areas contain **Medical Grade Hepa Air Purifiers**
- ♥ **Our HVAC (Heating and Air Conditioning System) contains a UV-C (ultraviolet) Air Sterilization System**
- ♥ **Extraoral Suction Units** are used during treatment to capture aerosols, trapping and filtering them into the **HEPA Air Purifiers**. **Viruses and bacteria** are eliminated with the **HEPA Filters and UV-C Sterilization System**

Our Dentists, Staff and Office:

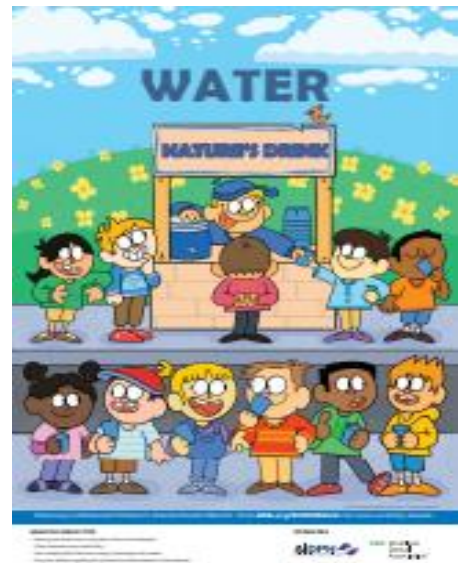

- ♥ Are Vaccinated and trained on COVID-19 guidelines
- ♥ Disinfect all instruments, equipment and surfaces at the beginning and end of the day, and after each appointment using products the ADA recommends
- ♥ Check staff and patient's temperature and ask prescreen CDC questions
- ♥ Wear gloves, face shields, N-95 and KN-95 masks for all procedures
- ♥ Schedule all appointments limiting and staggering patients and practice social distancing
- ♥ Request patients to call from their cars when they have arrived for their appointment
- ♥ Ask patients if they would like to use an anti-microbial rinse to reduce bacterial and viral levels

We look forward to seeing your smiling faces soon!

Tips For Children's Dentistry Health Month

At a time when kids and adults are concerned and anxious, we are taking steps to create a safe and comfortable place.

- ♥ Brush your teeth daily after each meal
- ♥ Drink plenty of water to stay hydrated especially now because you are wearing your masks all of the time
- ♥ We teach your child hygiene that will stay with them always
- ♥ Visiting your dentist regularly will help avoid any potential problems that haven't been examined

We offer comprehensive dental services for all ages, from infants - seniors. Good oral habits and nutrition begin at a very young age, and we are passionate about helping our youngest patients with their dental care. Sealants have been recommended by **The American Dental Association** to prevent tooth decay. Please call us to answer any questions you may have regarding any of our services.

A question frequently asked: At what age do we start looking into orthodontic procedures for our child? We recommend that early assessment and treatment should be addressed when children are approximately age seven. Although each child is different, it is best to discuss the specifics about your child with one of our doctors at your next appointment.

We look forward to a smile on your child's face and each parent's face too! Caring for all of your family's dental needs gives us a reason to smile!
