

**For our patients from the office of Dr. Matthew Rampetsreiter, DPM, FACFAS**

**Access your Electronic Health Records Through our Patient Portal**

In accordance with the requirements from the Centers for Medicare and Medicaid to meet the capability of patients to electronically access their electronic health records, we will provide each patient with instructions on how to access their electronic health information.

Dr. Rampetsreiter supports the patient's electronic access to their individual health record through a patient portal each patient can access from their home through Patient Fusion.

Once patients have applied for and received their Patient Fusion login credentials, you as a patient can view online, download, and transmit to another entity the following information:

- Diagnostic Test Results
- Problem List
- Appointments
- Medication Lists
- Medication Allergies
- Discharge Summary

Your patient data will be available to you within 4 business days after being available to your provider.

***To Receive your Patient Portal login Credentials***

1. Please provide Dr. Rampetsreiter with your email address so he can enroll you
2. You will receive a PIN during your appointment to log into this website <https://my.patientfusion.com/> also using information from Practice Fusion
3. After Dr. Rampetsreiter enrolls you, Practice Fusion will send you an email with instructions on how to create your Patient Fusion login account.
4. Upon creating your Patient Fusion account, you'll be able to log in and access your health information
